Entry level never looked so good
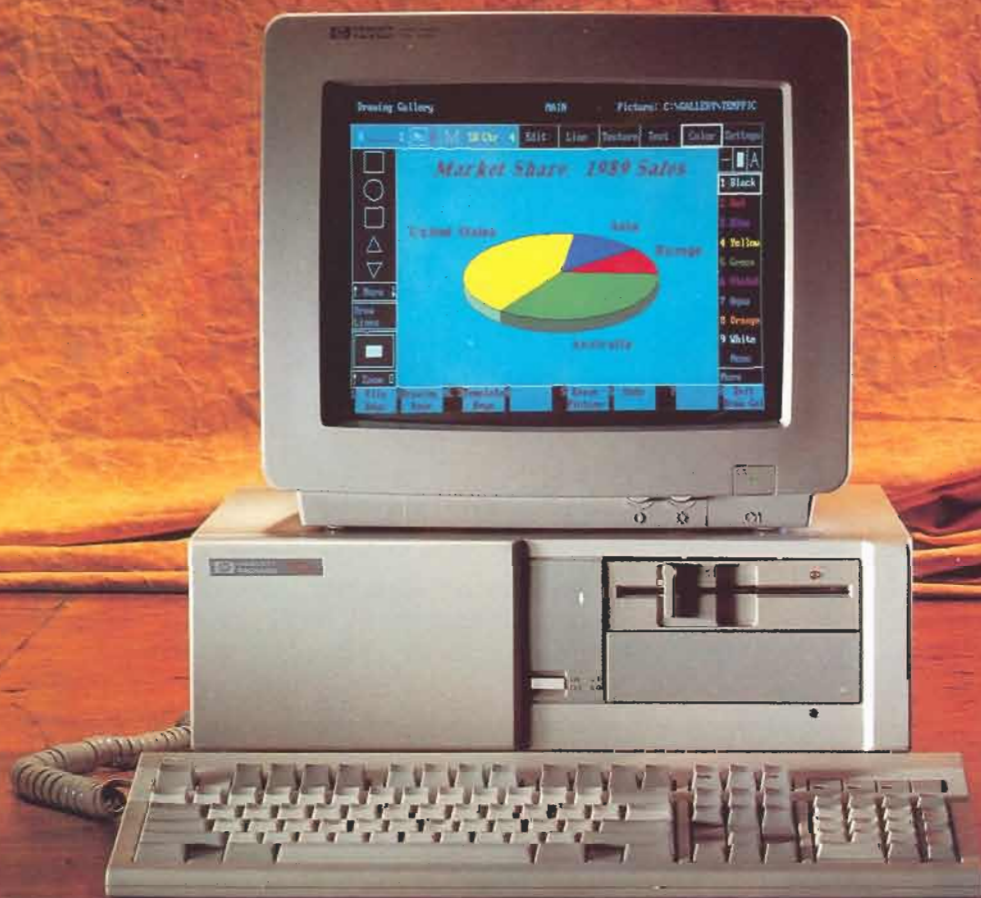

This is the HP Vectra 286/12 PC. The entry-level personal computer from Hewlett-Packard that's a powerhouse of performance for every general-purpose application your business requires.

As a stand-alone or as part of your networked system, the HP Vectra 286/12 PC is ready to take on spreadsheets, word processing, databases, and business graphics with ease. And speed you through your tasks for improved productivitiy.

This PC has been tested, pushed, and tortured to eliminate failures. And it's a true performer, designed to PC/AT industry standards—to keep it running on your existing software as well as the new, when your business needs require expansion.

The HP Vectra 286/12 PC is the affordable, reliable choice for the business PC user who's concerned with how this PC will perform day after day, year after year on those tasks that have become the foundation of your business.

The HP Vectra 286/12 PC is part of Hewlett-Packard's broad line of high-performance 80286- or 386™ and i486™-based PCs. For reliability, performance, and support, we're convinced it offers the best choice of 80286-based PCs to handle your personal computing needs.

And with our extensive network of authorized dealers—backed by more than 410 HP sales and service facilities around the world—you're assured of assistance or advice wherever, or whenever, you need it.

Product Specific Features/Benefits

Features	Benefits
12-MHz, 16-bit 80286 processor with zero wait-state memory	Provides excellent performance to handle general business applications
Fully compatible with OS/2, MS-DOS® 3.3 and 4.01, and SCO™ Xenix System V	Allows you to run and exchange data with thousands of industry-standard software applications; protects your software investment
1 Mbyte of RAM standard; memory on system board expandable up to 8 Mbytes	Runs applications that require 1 Mbyte of memory such as Lotus® 1-2-3® Version 3.0
Up to 8 Mbytes of memory runs at 12 MHz	Increases productivity by running any application—no matter how large—faster
Highly integrated motherboard with integrated video	Provides high reliability and low cost of ownership
Choice of 20-, 42- or 84-Mbyte hard disk with seek time as low as 19 ms	Improves productivity with high-speed access to stored data
4 available slots with 176-watt peak power supply; 3 half-height mass storage shelves	Provides ample expansion capability to meet your particular needs
5¼- and 3½-inch flexible disk drives supported	Permits flexibility to exchange and save data in the format you choose
Integrated Super VGA	Provides quicker screen updates for video-intensive applications including MS Windows
Serial and parallel ports	Allows immediate hook-up to your peripherals and host computers
Mini-DIN mouse port	Increases expandability; allows you to connect a mouse (or other input device) without using up a slot on your PC
Optional 12-MHz Intel 80287 coprocessor	Increases computational power; reduces waiting time for general office applications such as business graphics and spreadsheets
Shadow RAM	Increases performance of typical business applications by 5% to 10%; even more impressive gains for video and disk-intensive applications
50-year tradition of quality products	HP delivers PC products that you can depend on for your most critical office applications
