

Up to
160 GB
of network
storage.

Simply.

Grow your company with MaxAttach™ NAS 3000. It's a revolutionary new device that makes adding network storage fast and simple. In just 10 minutes, you can install file sharing. Expand your business and network power with MaxAttach.

It's easy

The MaxAttach NAS 3000 network storage appliance offers easy installation and configuration with the Maxtor MaxNeighborhood.

This setup and discovery wizard makes adding network storage intuitive.

Just point and click.

Plus, during installation, there's no interruption to your network or any existing servers.

It's secure

The dual drive MaxAttach NAS 3000 can be configured with disk spanning or disk mirroring (RAID 1) to address the resource efficiency and file protection needs of your organization.

It's fast

There's no waiting. The MaxAttach NAS 3000 server provides superior sustained throughput and response times. And, because its hardware and software are highly optimized for file sharing, it stays fast even as additional PCs are added to your network. This means quicker access to files and data for everyone.

MaxAttach—the simple and secure solution to increasing your networking capability.
